

## **HALEMEIER WARRANTY**

The limited warranty covers factory defects in materials and workmanship for a period of 1 year subject to the conditions described below:

This limited warranty is provided to the original consumer owner only and not subsequent owners of the residence or commercial location in which the product was originally installed.

It is an express condition of this warranty that a surge protector is installed to protect Halemeier Lighting Components from power surges.

The warranty starts from date of purchase from Larson.

### **Not covered**

The limited warranty does not extend to and expressly excludes:

- Losses or damages or the inability to operate your Halemeier Lighting Components resulting from conditions beyond the Manufacturers control, including without limitation, accident, alteration, misuse, abuse, neglect, negligence, failure to install correctly, maintain, assemble or mount the Halemeier Lighting Components in accordance with the Manufacturer's instructions or local electrical codes.
- Wear-and-tear expected to occur during the normal course of use, including without limitation, rust, scratches, dents or comparable and reasonable expected losses or damages.
- Damage to the unit caused by power surges or inconsistent electrical supply.
- Damage to the unit caused by chemicals, liquids, dirt, or physical impairment.
- Halemeier Lighting Components installed in an industrial application.
- Halemeier Lighting Fittings used on non-Halemeier ballasts, cables and switches.

### **Note:**

Only use Halemeier-approved products with your Halemeier Lighting Components.

A failed Halemeier Lighting Component due to incorrect installation, misuse, damage or power surges is not considered a factory defect and does not fall under the warranty cover.

### **No Other Express Warranty Applies**

This limited warranty is the sole and exclusive warranty provided to the customer identified above. No other express warranty, written or verbal applies. No employee, agent, dealer or other person is authorised to alter this limited warranty or make any other warranty.

Larson or Halemeier will determine, in its sole and absolute discretion, if your Halemeier Lighting Components are covered under this limited warranty.

If a covered claim is made during the warranty period, Larson will, through its authorized service representative, either repair or replace your Halemeier Lighting Components. Cost of replacement

parts or a new Halemeier Lighting Component will be provided at no cost to you. Repair or replacement shall be determined by Larson in its sole discretion. If Larson determines that your Halemeier Lighting Components must be replaced rather than repaired, the limited warranty on the replacement Halemeier Lighting Components will be limited to the unexpired term remaining in the original warranty period.

**The limited warranty is void if you try to repair the Halemeier Lighting Components.**

#### Limitation Of Liability

To the extent permitted by law, in no event shall Larson or its authorized service representatives be liable for any incidental, special, indirect or consequential damages, including any economic loss, whether resulting from non-performance, use, misuse or inability to use the Halemeier Lighting Components or the manufacturer's or its authorized service representative's negligence. Larson and the manufacturer shall not be liable for damages caused by delay in performance and in no event, regardless of the form of claim or cause of action (whether based in contract, infringement, negligence, strict liability, other tort or otherwise) shall manufacturers liability to you exceed the price paid by the original owner for the Halemeier Lighting Components.

The term 'consequential damages' shall include, but not be limited to, loss of anticipated profits, business interruption, loss of use or revenue, cost of capital or loss or damage to property or equipment.

The call-out warranty is only valid to the geographical areas within 100km of Ethekwini, Johannesburg, Port Elizabeth and Cape Town. Units installed outside of this geographical area will need to be returned to the nearest Larson branch for assessment.
