# HAILO

## MORE THAN JUST A BIN

Hailo's technology offers a multitude of optimal solutions for the kitchen industry - from built-in bins and waste separation systems right through to free-standing units and world-class ladder systems.

### The brand

Since the company was founded in 1947, Hailo has been working on making life safer and easier for generations of housewives, and D.I.Y. enthusiasts.

As one of the leading manufacturers of ladders and waste bins, Hailo offers customers a comprehensive and innovative range of standard-setting products. With trend-setting product innovations Hailo is continually offering new drive to the market. Today, Hailo products are sold in more than 60 countries.

### The red dot is our trademark

It stands for quality products that simplify our lives as well as for technical solutions required for fitted kitchen design and professional ladder systems.

With the expertise it has accumulated over many years and its ongoing attention to the needs of its customers, Hailo has become a brand you can trust when doing jobs at home or as a professional investment. Hailo is constantly driven to develop innovative and functional product solutions.

### Hailo - The brand that stands for quality

A workspace needs to be perfectly equipped if one is to enjoy the experience of a functional kitchen. Waste disposal November not be the first thing that comes to mind when considering this, but it has a significant role to play when it comes to utilising all the possibilities of the modern kitchen.

The products should still work perfectly and make life easier, even after many years. At Hailo, every new product we develop first undergoes an endurance test. That's because we understand "Made in Germany" to mean precisely what our customers expect of the market leader in fitted kitchen technology: first-class quality and innovative solutions that make working in the kitchen easier and more enjoyable. That's what you can expect from us and what you should measure us by, because we want to fully meet this standard at all times!

## Going green

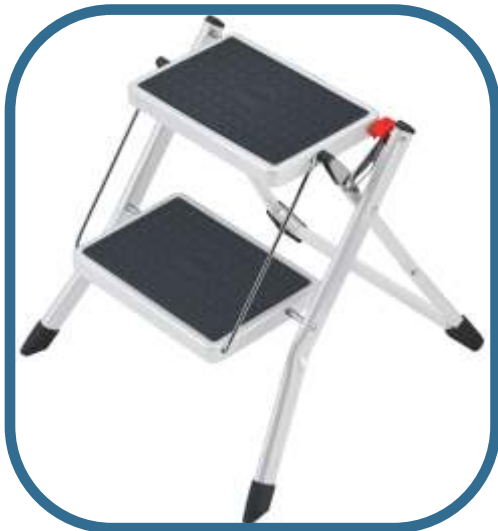

The original slogan for the modern tree-hugger still applies. Amazing technological developments are exciting, but it's the day-to-day actions, and the habits you cultivate, that matter most. When you change your thinking, you change your life.

Adapting to a greener lifestyle is beneficial for a variety of reasons, and it's not all about the planet. Green habits often save you money and improve your health and life as well. Hailo waste separation systems provide the helpful hand you need to achieve your green goals.

Hailo's technology offers a multitude of optimal solutions for the kitchen industry - from built-in bins and waste separation systems right through to free-standing units and world-class ladder systems.

## Award-winning Ladders

Hailo Ladders, made in Germany, are the most respected of all brands in that it provides premium technology and maximum safety. Customers world-wide value these qualities and rate Hailo among the very best internationally.

## A variety of Germany Quality products

Browse our product range: we guarantee that you will be impressed by the extensive range that Hailo has to offer.

There is no compromise on quality, functionality and design because we believe that our products become part of the lives of our users.
