

Built-In Appliances

Sensing the difference.

Whirlpool appliances featuring 6th Sense technology, have intelligent features making cooking, washing, storing & cleaning one of life's small pleasures

People call it the **Whirlpool** experience.

10|2018

INTELLIGENT APPLIANCES

TO MAKE YOUR LIFE MORE EFFICIENT AND PLEASURABLE

Recently surpassing 100 years, Whirlpool is a global leader in the manufacturing and sale of household appliances. This is a success born out of relentless research and innovation, consistently producing leading design and functional solutions to better satisfy the changing needs of consumers. New design trends, technological advances, evolution in society and changes in domestic behaviour have all inspired our innovation. This produced cleaner, more attractive styling and more sophisticated and responsive functionality. The result is stylish appliances with intelligence to more of the work on the consumers behalf, radically simplifying their lifestyle.

Like everything Whirlpool manufactures, its innovative products are designed to adapt to your lifestyle, providing you with the elements to create your ideal living space whatever your specific operational and space requirements.

Characterised by elegant, ergonomic design and attractive, high quality materials, the range offers a variety of shapes, sizes and aesthetics, all containing intelligent functionality that keeps pace with your needs as they arise: Whirlpool's patented 6th Sense technology and other intelligent innovations such as text assisted displays take care of the details, leaving you free to get on with your life.

6th
sense®

Through its sensors, 6th Sense technology is able to sense the weight of the food that is being cooked and the precise temperature inside the cavity, adapting the cooking time and controlling the cooking process accordingly, while giving feedback via the user-friendly touch control display.

QUALITY AFTER-SALES SERVICE

UNDERSTANDING YOUR WARRANTY

Whirlpool offers two years full warranty from the date of original retail purchase, any functional part which fails in normal home use will be repaired or replaced free of charge including the part itself and labour costs. Evidence of the purchase (receipt), 12NC product code and serial number are required to obtain free warranty service. These repairs are free of charge for the consumer; cost are covered by Whirlpool as warranty repair.

In no event shall Whirlpool be liable for any consequential, either direct or indirect damages, whether foreseeable or unforeseeable, resulting from improper usage or maintenance of the appliance as well as for any damages consequently to the non observance of the appliances instructions for use.

After the warranty period, all repairs will be completely charge to the consumer.

A world of tasty, nutritious food

The Whirlpool Combi Steamer will breathe new life into your cooking. By combining the power of steam with the intelligence of Whirlpool's unique 6th SENSE technology, your favourite dishes are given a delicious fresh quality and opens up a world of sophisticated new recipes to explore.

A highly sophisticated cooking method, combining hot air with dry steam (at over 100°C) so your food becomes crunchy on the outside, while fish and meat remains juicy on the inside. This function is ideal for a large number of exquisite recipes: 71 of them are already memorized in the user interface.

As a result of the delicate cooking process, food cooked in the Combi Steamer not only looks and tastes great but also retains its nutritional value, vitamins and minerals.

Fast, efficient cooking

Steam-assisted cooking is not only healthy, but also faster than conventional cooking. 6th SENSE technology injects just the right amount of steam into the cooking process at the right temperature and at the right time, while special sensors constantly monitor the quantity and temperature of steam in the cavity to ensure your food is cooked to perfection. With the heating element placed at the back, food is also crunchy on the outside.

The finishing function uses steam to warm up pre-cooked food, for excellent, rapid results with no drying out, so warmed food tastes like it has just been freshly cooked.

Steam

Particularly suited to cooking vegetables, the Whirlpool Steam function helps you retain all the important vitamins and nutritional content of your food. What's more, your vegetables don't take on the odours or taste of other foods cooked at the same time.
